Re: Notice of File Closure for Small Mining Project, William B. Wray Gypsum Mine, S/015/082, Emery County, Utah

Dear Mr. Wray:

On July 2, 2001 we received your request to close your William B. Wray small mine file located in Emery County, Utah. Your request stated you had relinquished your lease and no work was done on this project. Because this project was located on a state lease managed by the School and Institutional Trust Lands Administration (SITLA), we contacted their office and confirmed that no work had been done on this project and your lease will expire in September 2001.

You are hereby released by the Division from further mining or reclamation responsibilities at this site. You are not required to pay the \$100.00 permit fee as recently requested. If you wish to conduct any future mining related activity in this area, you will need to submit a new notice to the appropriate agency(s), pay the Division permit fee, and receive written approval(s), prior to creating any disturbance. **Please be advised that release from this Division does not relieve you of any responsibility SITLA may require.**

If you have any questions or concerns regarding this action, please contact me at (801) 538-5310.

Sincerely,

A handwritten signature in black ink, appearing to read 'Lynn Kunzler'.

Lynn Kunzler
Senior Reclamation Specialist
